

## Jesus' Power over Nature: Activity Instructions.

### Explorers Activity

Make paper boats.

Before the lesson, use brown paper to make a boat for each child using these instructions.

Paper measuring at least 21cm x 21cm works well. Print 'Explorers Activity' onto paper (one copy for every six children) to make the sails.

### **For the Activity**

**The children** decorate their boat and sail. Make holes at the Xs on the sails and use a drinking straw for the mast. Attach the mast to the bottom of the boat using a small lump of Blu-tack.

You could also supply the children with a small rectangular piece of foam/rubber for the cushion on which Jesus was sleeping. Place this in the stern (back) of the boat.

Remind the children that the disciples thought that Jesus didn't care because he was sleeping when they were in trouble. He showed that he does care and is powerful enough to help them because he is God.
